**Login:** Anonymous

**Email:** n/a

**Responded At:** Jun 20, 2018 11:44:25 am

**Last Seen:** Jun 20, 2018 11:44:25 am

**IP Address:** n/a

- Q1. **First name** Jamie
- 
- Q2. **Last name** Shaw
- 
- Q3. **Phone** not answered
- 
- Q4. **Mobile** [REDACTED]
- Q5. **Email** not answered
- Q6. **Postcode** [REDACTED]
- Q7. **Country** Australia
- Q8. **Stakeholder type** Individual
- Q9. **Stakeholder type - Other**  
not answered
- Q10. **Stakeholder type - Staff**  
not answered
- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** No
- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** Yes
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**  
The continued logging of native forest is damaging threatened species habitat, particularly koala, is increase our climate emissions and is a costing taxpayers in NSW millions in subsidies to a outdated industry.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**  
None

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

The proposed logging of old growth forest again and the logging of threatened species habitat and the continuation of wasteful and destructive wood chipping of native forest in general.

---

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

End native forest logging now.

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

No, the old IFOAs have overseen thousands of breaches during forestry operations and there is nothing in the draft IFOAs that will provide better protections for native forests or threatened species.

---

**Q21. General comments**

These draft IFOAs simply entrench a defunct industry and destructive wood chip logging. We need to end native forest logging in NSW and have a just transition for forest workers and investment in new industries in our forests including renewable energy cents for leaving the trees in the ground as carbon storage.
