

**Respondent No:** 370

**Login:** Anonymous

**Email:** n/a

**Responded At:** Jul 07, 2018 10:08:17 am

**Last Seen:** Jul 07, 2018 10:08:17 am

**IP Address:** n/a

- Q1. **First name** [REDACTED]
- Q2. **Last name** [REDACTED]
- Q3. **Phone** [REDACTED]
- Q4. **Mobile** not answered
- Q5. **Email** [REDACTED]
- Q6. **Postcode** [REDACTED]
- Q7. **Country** not answered
- Q8. **Stakeholder type** Individual
- Q9. **Stakeholder type - Other**  
not answered
- Q10. **Stakeholder type - Staff**  
not answered
- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** No
- Q14. **Can the EPA make your submission public?** Yes, but anonymous
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**  
All parts as they are important environmental concerns
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**  
Use of planned forest planting that are used for a specific purpose.

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

The ongoing destruction of forests.

---

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

These are important

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

No ~ we need to leave the forests we have left alone.

---

**Q21. General comments**

You have forests planted for a specific purpose ... and you have lots of land already laid bare from inefficient and thoughtless procedures in the past. Build your own purpose built forests on that land and conserve our forests. Use less, be innovative and consider more how to make the most of what we have already harvested. Stop and think about our children's and grandchildren's inheritance... not your own selfish wants.
